QUICK SETUP GUIDE

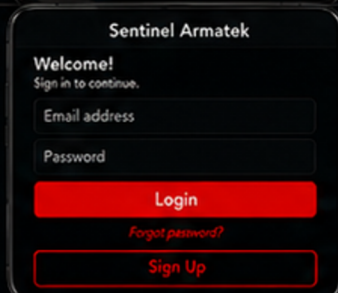

1. DOWNLOAD & REGISTER

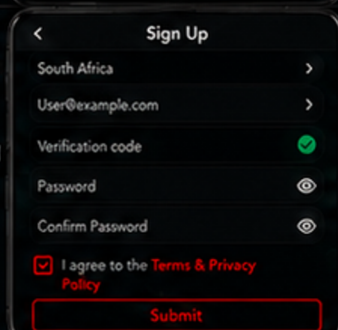

- 1 Open your app store and search Sentinel IoT.

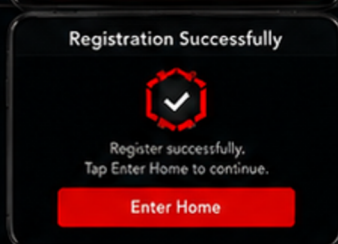

- 2 Open the app and tap Sign Up.

- 3 Enter your email address and request the verification code. Enter the verification code and password, accept Terms & Privacy Policy, then tap Submit.

- 4 Registration successful. Tap Enter Home or click OK.

SETUP COMPLETE

Your app is installed, your account is registered, your device is linked, and your geo-fence is active.

2. ADD YOUR DEVICE

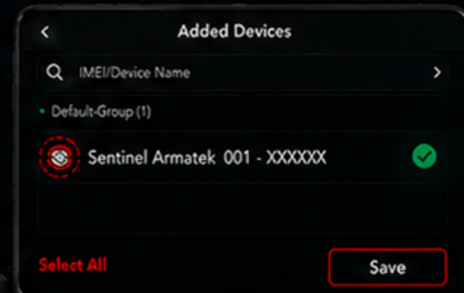

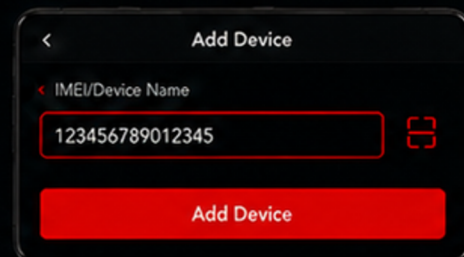

METHOD A – SCAN THE PRODUCT QR CODE

- 1 Tap the + or Add Device.
- 2 Scan the QR code.
- 3 Tap Add Device.

METHOD B – ENTER THE IMEI MANUALLY

- 1 Tap the + or Add Device.
- 2 Type the IMEI number.
- 3 Tap Add Device.
- 4 Confirm the device appears in your list.
- 5 Tap Save if prompted.

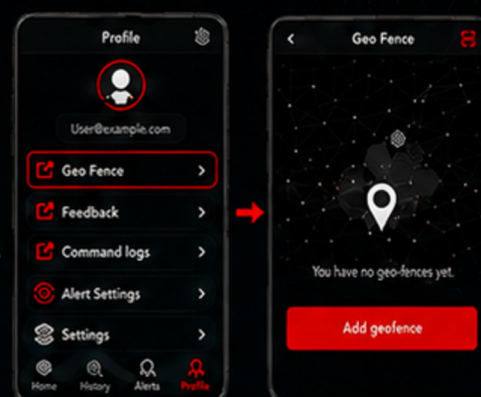

You can manage your device and geo-fences anytime in the app.

3. CREATE A GEO-FENCE

- 1 Open Profile and tap Geo Fence.
- 2 Tap Add geofence.

- 3 Search for an address or move the map to the area you want to protect.
- 4 Adjust the geo-fence size.
- 5 Name the geo-fence.
- 6 Choose the group and alert settings if required.
- 7 Tap Save.

- 8 Select the device to assign to the geo-fence and tap Save.
